LOT 4692 - BELGIAN DOUBLE BARREL PERCUSSION BELT PISTOL

Description

10mm or 40 calibre, 78mm barrels, double shot with double hammers circa 1850; in overall good untouched condition, the 3-inch octagonal unmarked .40 caliber smoothbore steel barrels with untouched steel-gray/brown surfaces; central hammer boxlock percussion mechanism with both the original hammers and percussion nipples, two offset triggers; in mechanically functional order with strong mainsprings and very good timing, the grips are molded burl walnut with a tight metal-to-wood fit and three interesting purposely cut notches in the left side; a fine example of mid-19th century continental European (Belgian) design

Quantity: 1
