**LOT 4723 - STEVE SMITH TALKING EARTH WATER POT**

### Description

A unique Talking Earth example of a Susquehannock water pot; used to carry water from the river, the notches above the carved heads were set to hold a wooden stick laced to the piece as a carrying handle; this lovely signed pot comes with the usual scroll written by the artist to describe the details of each piece he has created; measures 8in high to the rim by approximately 8 1/2in across from face to face

**Quantity:** 1
